"Now I'm hungry for noodles! My kids loved *The Discovery of Ramen* immediately when they saw it. My 8-year-old wanted to read it on her own." - Kaye Puhlmann, Storybird

"[*Sora and the Cloud*] is itself a lovely tribute to the joys of soaring high... It is tempting to label 'Miyazaki-like' anything appealing to children and Japanese in origin. But in this instance the analogy fits." - *New York Times*

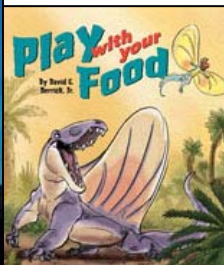

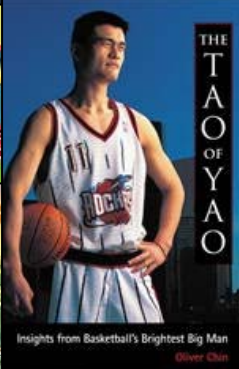

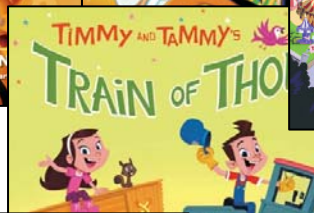

"Readers will be enlightened by the dazzling explanation of one of China's four great inventions. *The Discovery of Firework and Gunpowder* is a treat for lovers of adventure and learning." - Calvin Leung, CIS De Avila Elementary School, SFUSD

"The *Tales from the Chinese Zodiac* books are a great gift idea for friends and family" — National Association of Asian American Professionals

"Practice makes perfect. That's what [*Julie Black Belt*] learns in her beginning kung fu class along with lessons about dedication and determination... a high-action story that encourages deep reflection despite the action movie look." — *San Francisco Chronicle*

"[In *Amazing Chinese Inventions*] softly colored, cut-paper figures smile... reflecting the infectiously humorous tone. What will the young Kangs dream up next?" - ALA Booklist

"In a brilliant blend of fantasy and fiction, Meomi entertains and educates... The core focus of each [*Octonauts*] story is exploration and the protection of the natural environment. It is clear through these tales that Meomi works to accomplish this through the education of young minds." — *Wired*
